CAREER OBJECTIVES

Passionate and skilled backend developer, with a focus on PostgreSQL, MongoDB, Prisma(ORM), Mongoose(ODM), Express.js, and Node.js. Seeking to leverage my expertise in backend development to contribute to innovative and dynamic projects in a collaborative team environment. Committed to delivering high-quality, scalable, and responsive web applications that meet client and user needs. Eager to continue learning and adapting to new technologies.

TECHNICAL SKILLS

- **Backend:** NODE.JS, Express.js
- **Database:** Postgresql, MongoDB
- **ORM:** Prisma
- **Package Manager :** NPM
- **Version Control System :** Git
- **IDE:** Sublime Text, VS Code
- **Other Softwares:** MS Office, POSTMAN
- **Operating System:** Windows
- **Hosting :** Render, Vercel
- **Others :** AJAX

Professional Experience

- **Jr. Backend Developer(Node.JS) at Tech Butomy Pvt. Ltd.(Mar 2024-Present)**
 - Developed and implemented a scalable backend architecture for multiple applications, ensuring high performance and reliability.
 - Created a real-time chat section using Socket.IO in Node.js, enhancing user engagement and communication.
 - Integrated third-party services like Cloudinary for image uploads and Firebase for notifications, optimizing overall functionality.

- Experienced in database management with Prisma and PostgreSQL, and in handling file uploads with `multer-s3`
 - Built RESTful APIs with Node.js and Express, including complex features like booking systems, quiz scoring algorithms, and notifications.
 - Skilled in managing cron jobs, implementing push notifications, and optimizing date/time handling in applications.
- **Full Stack Web Development(MERN) Internship from MashupStack(Oct 2023-Mar 2024)**
 - Developed CRUD applications using React, implementing user login systems.
 - Developed scalable backend systems using Node.js and Express.js.
 - Utilized MongoDB and Mongoose for database management and seamless data interaction.

PROJECTS

TASKBERRY(Backend)

Developed the backend for Taskberry, a service booking app that allows users to book services on an hourly basis. Integrated a real-time chat feature using Socket.IO, ensuring seamless communication between users and service providers. Utilized Node.js, Express, PostgreSQL, and Prisma to build a scalable and efficient system for booking management, user authentication, and notifications.

(Associated with Tech Butomy Pvt. Ltd.)

Hexis-Stoven(Backend)

Developed Hexis Stoven, a quiz app with a backend that includes account management and scoring systems. Integrated a cron job for automatic account deletion after 15 days of inactivity. Utilized Node.js, Express, and Prisma to build robust APIs, manage user data, and handle notifications.

(Associated with Tech Butomy Pvt. Ltd.)

MEDICURE(WEB APP)

Medical Store Inventory Management Web App using React! Simplify record management for medicines and user authentication with token security.(Front-end).

(Associated with MashupStack)

EDUCATION

- B.Tech in Mechanical Engineering, Government Engineering College, Bartonhill Trivandrum with [GPA:6.56] in [2020]
- Diploma in Mechanical Engineering, Sree Narayana Polytechnic College, Kottiyam with [GPA:8.5] in 2017
- +2 from Govt. H.S.S Palayamkunnu, TVM with [80%] in [2014]
- 10 from Govt. H.S.S Palayamkunnu, TVM with [96%] in [2012]

PERSONAL DETAILS

- **Full Name:** Sherin S
- **Date of Birth:** 05-07-1996
- **Marital Status:** Single
- **Gender:** Male
- **Address:** Shamalayam, Ayiroor P.O Varkala, Trivandrum
- **Languages Known:** English, Malayalam
